### CalCAP Electric Vehicle Charging Station (EVCS) Financing Program

In collaboration with the California Energy Commission, CalCAP's EVCS Financing Program provides financing for design, development, purchase, and installation of electric vehicle charging stations at small business locations in California. The unique feature of the program is that it offers small businesses a rebate for installing a charging station. Program information is available at:

<http://www.treasurer.ca.gov/cpcf/calcap/evcs/index.asp>

Small businesses interested in obtaining electric vehicle charging station financing should contact the program lenders. The current list of program lenders is located at:
